## Smart Lotis Recessed 4.5

### Overview

Smart Lotis is the best known fixture within the Smart family. The deeply recessed cone which holds the light source inspired the designers to create a very versatile spot to be combined with multiple accessories. The Smart family's styling is based on our most popular designs. Since its introduction, Smart has become an extensive portfolio with a broad range of accessories. The new recessed lights can be combined with the optional Smart mask to form the perfect solution for any interior.

With an outer flange diameter of 4.5" and an aperture of 4 inches, the Smart Lotis 4.5 is compact yet powerful. Made from die cast aluminum alloy and offered in a variety of finishes.
