

Description

Slim U-shaped customisable LED linear profile system for continuous direct lighting with optional indirect lighting.

The unit consists of an aluminium base combined with a diffuse polycarbonate diffuser, prismatic polycarbonate diffuser or aluminium blind cover plate.

When combining the LED lines with prismatic polycarbonate, the profile system becomes compliant with the EN12464-1 office standard.

The base can be surface mounted (either ceiling or wall), suspended or recessed (either trimless or with flange).

Materials

- Base and front cover: either anodized in aluminium colour, either brushed anodized in bronze, champagne or silver bronze colour, either finished with scratch-resistant fine textured powder coating in matt white or matt black
- End plates: aluminium, either spray painted in any colours, either finished with scratch-resistant fine textured powder coating in matt white or matt black
- Diffusers: polycarbonate

Technical characteristics

- Dimensions: 80 mm x 50 mm (H x W)
- Average base thickness: 1.5 mm
- Suitable for a continuous direct light line with high-power LED line modules of 2657 lm/m (3000K, 50° lens, full load):
 - 29 W/m (3000K, full load)
 - 90 lm/W (3000K, full load)
 - 2700K, 3000K, 4000K or Tunable White (2700-6500K)
 - all CRI90
 - binning of 3SCDM
 - L80B10 @ 50.000 hrs lifetime
 - integrated electronic LED drivers: non-dimmable, DALI/Pushdim or Casambi
 - also available in preset dimmed version @ 50% of initial light output
 - available both with or without lens pack
 - also available with an emergency pack (3 hours)
- Suitable for a continuous uplight line with indirect flexible LEDstrip of 1000, 2000 and 3600lm/W:
 - 2700K, 3000K or 4000K
 - all CRI90
 - binning of 3SCDM
 - integrated electronic LED drivers on 24V possible: non-dimmable/trailing edge dimmable/1-10V/Dali-Pushdim
- Integratable spotlighting LED high power COB modules available:
 - orientable +30°/-30°, 360° rotatable
 - 7.5W per module
 - 544lm per module (3000K, medium reflector)
 - 72lm/W
 - 2700K, 3000K, 4000K
 - all CRI90
 - binning 3SDCM
 - medium (25°) and flood (40°) high gloss aluminium reflector
 - integrated electronic LED drivers: trailing edge, 1-10V, DALI/Pushdim or Casambi
- Integration of various spotlight modules via 'plug and play' jack system
- Luminaire efficiency: 75% or more (depending on the type of diffuser and lens)
- The UGR value varies between UGR 16 and UGR 22 (values depend on the output per meter and the combination of uplight and downlight)
- Power: 220-230V, 50-60Hz
- Class 1
- 960°C Glowwire rating
- Only for indoor use
- Warranty period: 5 years on LED lamps, 5 years on drivers

SLD50

Installation

- Fully tested and preinstalled halogen-free wiring. Ready to connect to mains via any connection point.
- Drivers and LED lines are preinstalled in the unit and easy to replace with a click system
- Surface mounted ceiling: universal chipboard screws, maximum \varnothing 4.5 mm
- Surface mounted wall: universal chipboard screws, maximum \varnothing 4.5 mm in combination with wall bracket
- Suspended: Steel cable and bracket. Height adjusted at profile side. Position alongside the profile adjusted by sliding the bracket in the back of the profile.
- Recessed: steel installation brackets for trimless or non-trimless installation

Accessories

- Suspension set with steel cable, transparent 3,5 or 7 pole power cable, matt white/black textured or grey polyester powder coated aluminium ceiling mounts
